

Timbits Box

Style: Die Cut Carton
Closure: Glued
Die Cut? Yes
Common Flutes: E/B/C

We call this the Timbits style for quite obvious reasons. □
This carton uses the same structural design as Tim Horton's famous Timbit boxes, □
it has options for it's bottom flaps, they can be RSC/FOL flaps, or the 1-2-3 Bottom as shown here, □
it can even use a hymes insta-bottom for the easiest setup process.
