

Heavy Weight Display

Style: Die Cut Display
Closure: Glued
Die Cut? Yes
Common Flutes: B/C

We call this our heavy display due to its weight carrying capabilities. □
It has been used in the past to display Flour Bags, Energy Drink Cans and Beer Cases. □
The Width, Depth, Height and number of shelves can be customized to fit the customers needs.
The part about this display that makes it unique is the plastic clips it uses to fasten the shelves into the body unit, These clips along side 3 other corrugated locking features ensure the shelves are very secure and stable compared to other display units.
